Low Grow-Low Maintenance

Turf Mix

*Seeding rate: 5 to 7 lbs per 1000 sq. Ft.
Over seeding rate: 4 lbs per 1000 sq. Ft.*

This mixture requires less maintenance after establishment. A naturally low-growing, fine bladed, dark green turf. This mixture may be planted in sun or moving shade. All of the grasses are noted for their exceptional drought tolerance. Will grow on a wide range of soil types and fertility levels.

Low Grow-Low Maintenance is often used in mountain areas for low-growing,

un-mowed, or infrequently moved lawns. The naturally low-growing, habit of this mixture lends itself to look like a meadow, and wildflowers may be added to complete this appearance.

In general this mixture will not grow over 12 inches tall with average moisture. Also, this mixture is recommended for low-maintenance lawns, particularly in older neighborhoods with large trees.

- 40% Creeping Red Fescue***
- 20% Perennial Ryegrass Blend***
- 15% Kentucky Bluegrass***
- 15% Durar Hard Fescue***
- 10% Chewings Fescue***
