# Rocky's Ballpark Turf Mix

*75% Spirit Perennial Ryegrass*  
*15% Mongoose Kentucky Bluegrass*  
*10% Fiji Perennial Ryegrass*

Designed for areas of heavy foot traffic such as sports fields and playing areas. These grasses display dwarf characteristics and aggressive habits, repairing quickly from foot damage.

**Rocky's Ballpark** forms a beautiful dark green, fine leaved, dense carpet like sod. The mixture prefers a sunny location but will grow in areas of moving shade. Cold and heat tolerant,

shows some drought tolerance but will require regular watering and fertilization.

The perennial ryegrasses in this mixture carry a very high endophyte content giving **Rocky's Ballpark** a more than adequate amount of insect resistance. The improved Kentucky Bluegrass helps it to maintain a resistance to multiple diseases.

- *Heat and cold tolerant*
- *High endophyte content*
- *Excellent wear tolerance*
- *Exceptional dark green color*

**Seeding rate: 5-7 lbs per 1000 sq. Ft.**  
**Over seeding rate: 4 lbs per 1000 sq. Ft.**
